ADDITIONAL INFORMATION

Other contributions to the research community

He was the driving force behind an important technical and commercial agreement between Gilardoni and the American company Picker (GEC-Marconi group), which allowed Gilardoni to become the development and production center for the mammography systems that Picker exclusively markets under its own brand name worldwide. It also guaranteed Gilardoni the exclusive right to distribute the US manufacturer's large machines in Italy (computed axial tomography, magnetic resonance imaging, nuclear medicine), expanding and completing the range of equipment offered.
